

PRODUCT DATA SHEET

POOL & SPA TREATMENT

DESCRIPTIONS:

Pool & Spa Treatment is a natural enzyme clarifier, which effectively breaks down and emulsifies suntan lotions, body oils, cosmetics, perspiration, dead skin, saliva and other organic matter that contaminates your pool or spa. This results in the elimination of cloudy water, black water line rings, scum build-up and chlorine odours.

CHARACTERICS:

Enzyme Type:	Free Lipase Enzymes
Enzyme count:	12,000 LU / ml
Form:	Liquid
Appearance:	Blue
Fragrance:	Minty
Shelf life:	12 months

APPLICATIONS:

Swimming Pools	Spa Baths	Fountains
----------------	-----------	-----------

BENEFITS:

Reduces your harsh chemical usage	All-natural enzymes
Biodegradable	Safe for people and pets
Environmentally safe	Hypo-allergenic (nonirritating)
Filter cleaner	Compatible with all pool sanitisers

DIRECTIONS FOR USE:

SWIMMING POOLS:

Pool & Spa Treatment should initially be added to the circulating water through the skimmer.

Initial Dosage:	Add 100 ml per 6,500 liters of pool water
Maintenance Dosage:	Add weekly thereafter at the rate of 50 ml per 6,500 liters of water.

SPA BATHS:

Initial Dosage:	Add 10 ml per 2,500 liters of water.
Maintenance Dosage:	Add weekly at the rate of 5 ml per 2,500 liters of water.
