

PRODUCT DATA SHEET

ODOUR ELIMINATOR (LIQUID)

DESCRIPTION:

Odour Eliminator is a highly effective biological product that degrades the source of the odours, not just masking them. The product is a special formulation that when applied, binds the odour molecules to degrade them. These molecules are then converted into carbon dioxide and water.

CHARACTERISTICS:

Bacteria Type:	5 x Bacillus and 5 x enzyme blend
Total bacterial count:	67.3 million cfu's/ml
Form:	Liquid
Appearance:	Slightly cloudy
Odour:	Fresh
pH:	7 - 8
Shelf life:	24 months

APPLICATION:

Motor vehicle interiors,	Refuse collection areas
Carpet and fabric care,	Restrooms
Animal cages and pens	Water damaged areas

BENEFITS:

Non re-soiling action
Eliminates the source of the odour instead of masking it.
Converts the organics to carbon dioxide and water.

DIRECTIONS FOR USE:

Recommended dilution ratios:	
Extreme odours	- 1 : 5
Odour control	- 1 : 10
Misting	- 1 : 100
Misting (mild)	- 1 : 400
